

North Island Black and Coloured Sheep Sale

10 January 2026 - Dannevirke Showgrounds

Entry via Neptune St

Viewing opens 10am, sale starts 11am

BCSBANZ members have been breeding for top quality coloured sheep with exceptional wool for 50 years. The opportunity to purchase sheep of this quality only comes once a year. Sheep offered for auction are inspected for quality and soundness before being presented, and all rams are tested brucellosis-free. Rams, ewes, and lambs will be available in a variety of breeds. Note – our members focus on producing top quality wool so no shedding or hair breeds available.

Seeking high quality, pedigreed sheep to add the most to your flock, or to meet likeminded people with similar goals of top quality wool? Come along, meet the breeders, buy some sheep and stay for lunch.
